Japan's Number One in Tour Guide Human Resources

Our organization has the largest number of nationally certified guides in Japan.

These guides are bilingual professionals specialized in Japanese cuisine, tea ceremony, flower arrangement and other cultural aspects. On top of that, we don't simply remain satisfied with our present skillset, but keep on training our staff and guides with periodic professional level courses and are constantly striving to design and to offer higher level programs.

Possessing as we do Japan's largest staffing numbers for guides, our programs are run not only by language and culture specialists, but also by college professors, system engineers, accountants, and others. We have a large stock of human resources and experiences and excellent achievements to our name in taking care of many VIPs and MICE (Meeting, Incentive, Conference, Exhibition) events.

Genuine Japanese Cultural Experience, Japanese Lifestyle and Mind-set

In order to get the essence and deeper understanding of Japanese culture, actual practice and hands-on experience are much more effective than just looking at.

Japanese cuisine cooking, tea ceremony, flower arrangement, and suchlike. In addition to regular sightseeing tours, we provide many experimental style programs for our quests to have a genuine cultural experience. From the Metropolitan areas and Kansai areas, indeed in every corner of Japan, we offer a great variety of guided tours to satisfy myriad guests' requirements.

Also, we are now offering home visit style programs in order for a small group of guests to get actual experience in tea ceremony, kimono-wearing, and Japanese cooking.

As for guiding tours, rather than using DVDs or CDs, real human guides explain in their own words, thus enabling interactive communication. In this way, guests can get to know the true Japanese lifestyle and mind-set.

Flexible Offerings from the Single Guest to Big Groups

We offer flexible on-demand programs which are capable of satisfying requests from a small group of people. These programs are made possible by the Japan's largest membership of 1,400 guides and a unique human resources management system. This system enables our search for the right person in the right place, appropriate assignments, and quick response to a variety of requirements.
